

# OSR Re-Design Program Assessment

Office of Student Research

## Course Redesign Assessment

### Students

<b>Outcome(s)</b>	<b>Assessment(s)</b>
Students enrolled in new or re-designed courses will achieve the course specific learning objectives (reflective of the discipline)	Faculty will use direct assessment through tests, quizzes, papers, course assignments, presentations, portfolios, projects, etc. Faculty will also use indirect assessment using pre and post student surveys.
Students' completion rate in the course will increase.	The OSR will assess students' completion rate of class cohort.
Students enrolled will achieve OSR specific objectives (research and creative activities are directly connected with critical and independent thinking, creativity, discovery, etc....)	The OSR will also use indirect assessment tool, i.e. pre and post student surveys.

### Faculty

<b>Outcomes</b>	<b>Assessment(s)</b>
Faculty perception of student preparedness will increase.	The OSR will survey faculty members participating in the program.
Faculty will devote more time developing, measuring and achieving learning outcomes.	The OSR will survey faculty members participating in the program.
